

### **Are you ready to take your career to the next level?**

The [Emerging Leaders Workshop](#) is an interactive workshop designed to help accounting professionals like you unlock your full potential and significantly impact your organization. With guidance from Gallup Certified CliftonStrengths Coaches, you'll explore how to leverage your unique strengths. Our approach is rooted in Gallup's science in organizational psychology, our individual leadership experiences, and complemented by WSCPA's knowledge of the professional landscape and needs for accounting professionals. Check out the link for more details.

We understand that a barrier for students to attend this workshop is the cost. In order to eliminate that barrier, we are making a limited number of complimentary registrations available to students. You will find the application on the next page. All we need from you is some contact information for you and a Supporter (must be an educator **or** current WSCPA professional member) then a brief statement on how the workshop will benefit you and further your professional goals. Your Supporter will be notified if you are selected and sent an acknowledgement that you attended the event so make sure they know you're including them on the application. Please reach out to Benjamin Warren ([bwarren@wscpa.org](mailto:bwarren@wscpa.org) / 425-586-1126) if you have any questions or would like additional information.
